Records retrieved by the search
OpenAlex (129 queries), Crossref (9 queries),
Scopus (9 queries)
n = 10,005
Duplicates removed: n = 8,253
Unique records labelled during the search
n = 1,752
Out of scope for the dataset by label: n = 417
(other topics 161, theory 84, reviews 66, models without S 67,
monolayers 13, primary without data 26);
theory and reviews used as context
Records screened on title and abstract snippet
n = 1,324
Excluded: n = 554; context only: n = 217
kept but awaiting an abstract (Scopus, university network): n = 79
Records screened on the full abstract
n = 485
Reduction only assumed: n = 127 (analysed separately)
insufficient: n = 34; context only: n = 46; excluded: n = 14;
duplicates found at full text: n = 16
Reports sought for retrieval
n = 248
Not yet retrieved: n = 163
Reports assessed at full text
n = 85
Not in the synthesis:
assumed 3; context only 12; duplicate report 4
exclude 2; insufficient 14
Studies in the S/ϕ synthesis
measured n = 42; modelled n = 8
